

# XYZRadio

## README

### Introduction

This is an attempt at writing an IP Radio application based on Cappuccino (<http://cappuccino.org/>) and the SoundManager API (<http://schillmania.com/projects/soundmanager2/#download>).

The download contains all the stuff you need and a free demo song to test this app.

The images, songs and SoundManager.js code can be found on the Resources directory.

### Getting help

If you need help with XYZRadio, you can get help from the following sources:

- FAQ: Coming soon
- Documentation: Coming soon
- Wiki: <http://github.com/Alos/xyzradio/wikis>

If you discover any bugs, please file a ticket at:

<http://xyzradio.lighthouseapp.com/>
