

XYZRadio

README

Introduction

This is an attempt at writing an IP Radio application based on Cappuccino (<http://cappuccino.org/>) and the SoundManager API (<http://schillmania.com/projects/soundmanager2/#download>).

The download contains all the stuff you need and a free demo song to test this app.

The images, songs and SoundManager.js code can be found on the Resources directory.

Getting help

If you need help with XYZRadio, you can get help from the following sources:

- FAQ: Coming soon
- Documentation: Coming soon
- Wiki: <http://github.com/Alos/xyzradio/wikis>

If you discover any bugs, please file a ticket at:

<http://xyzradio.lighthouseapp.com/>
